MSc Healthcare Leadership

Leading People and Developing their
Resilience - a two day conference

Friday 5 - Saturday 6 April 2024

Please note that this agenda may be subject to small changes.

Hull Online Staff Attending

Dr. Patrick Marshall

Co-Programme Director and Module Leader

Jayne Walker

Co-Programme Director and Module Leader

Julie Sorokurs

Event Manager

Health and Safety

The University is not liable for any actions taken by students that put them at risk.

Please make sure to rest when needed and keep in touch if you need some support.

Travel and Accommodation

Students are responsible for booking their travel and accommodation at their own expense.

As this is not a short course of study (face-to-face events are optional and not credit-bearing), students living abroad do not need a Student Visitor Visa and should instead choose the 'Tourism, including visiting friends or family' option, which allows people to come to the UK to 'take part in sports or creative events'.

Important Information

Brynmor Jones Library, University of Hull

Social Media and Marketing

During the event, we will be taking photos and short videos to share on social media. There is no obligation to take part or appear in any of these. You also have the right to change your mind and request that any images or recordings of you are taken down.

If you have any questions or concerns about the above, just get in touch.

If you're interested in participating in a mini interview or testimonial about being a student with Hull Online, please let us know - we'd love to hear from you!

If you take any pictures or videos yourself, feel free to tag us @UniofHullOnline so that we have more memories to share!

Guest Policy

The scheduled activities are strictly exclusive to Hull Online students unless you require a carer in any capacity.

If you require any additional pastoral support, please get in touch.

Important Information

We will be exploring the connections and impact of leadership on creating resilient people by bringing together some high profile successful systems leaders who have faced the challenges of leading complex organisations whilst maintaining and supporting resilience in their teams. We will also be exploring some practical strategies to support staff, students, and patients in how this can be done and looking at the impact of this work.

Friday | 5 April 2024
